# PART 1075—CONSTRUCTION CONSERVATION ORDER NO. L-41

War requirements of the United States have created a shortage of all materials required for war production and construction necessary thereto, for private account and for export; the War Production Board accordingly has stated as its policy that it is in the national interest that all construction which is not essential, directly or indirectly, to the successful prosecution of the war, and which involves the utilization of labor, material or construction plant urgently needed in the war effort, be deferred for the duration of the emergency; the following order is, therefore, necessary and appropriate in the public interest to conserve scarce materials by allocating them to essential uses and restricting their use in non-essential construction.

- § 1075.1 Conservation Order L-41-(a) Definitions. For the purpose of this
- (1) "Person" means any individual, partnership, association, business trust. corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.
- (2) "Construction" means the erection, construction, remodeling or re-habilitation of any building, structure or project, or additions thereto or extensions or alterations thereof, but not including maintenance or repair as defined in paragraphs (a) (8) and (a) (9) below.
- (3) "Residential Construction" means any Construction where the principal function of the building, structure or project is or will be to provide living space or accommodations, including, but not limited to, single or multiple dwelling units, dormitories, hotels, and apartment houses.
- (4) "Agricultural Construction" means any Construction, other than Residential Construction, where the building, structure or project is used in the production of agricultural products including but not limited to, those produced by farmers, planters, ranchmen, dairymen, or nut or fruit growers.
- (5) "Other Restricted Construction" means any Construction, other than Residential and Agricultural Construction, including but not limited to commercial, industrial, recreational, institutional, highway, roadway, sub-surface and utilities construction, whether publicly or privately financed.

- (6) "Begin Construction" means to initiate Construction by physically incorporating into any Construction material which is an integral part of the Construction.
- (7) "Cost" is meant to include the total cost of labor and material, including equipment, architects', engineers', and contractors' fees, insurance charges

and financing costs.
(8) "Maintenance" means the upkeep of a building, structure or project in

- sound working condition.
  (9) "Repair" means the restoration, without change of design, of any portion of a building, structure or project to sound working condition, when such portion has been rendered unsafe or unfit for service by wear and tear, damage or other similar causes.
- (b) Prohibited construction. - (5) The Construction is Agricultural and the estimated Cost is less than one thousand dollars.
- (6) The Construction is Other Restricted Construction and the estimated Cost is less than five thousand dollars.
- (7) The Construction has been or is hereafter authorized by the Director of Priorities of the Office of Production Management or by the Director of Industry Operations by the issuance of
- (i) one of the Preference Rating Orders or Certificates listed on Schedule A attached hereto, as that Schedule may be amended from time to time, according priorities assistance to the Construction: or
- (ii) an order specifically authorizing the Construction.

Provided, however, That the exceptions set forth in paragraphs (b) (4) (i),

- (2) Where the applicant does not require priorities assistance, application for the specific authorization to Begin Construction referred to in paragraph (b) (7) (ii) hereof may be made by filing Forms PD-200 and PD-200A, or such other forms as may hereafter be prescribed, together with a statement showing (1) that no priorities assistance is requested, (2) whether any previous application for authorization has been denied, and, if so, the reasons therefor, and (3) the total value of all Construction on the particular building structure or project in the preceding twelve month period. Such forms or statements are to be filed with the field office of the Federal Housing Administration having jurisdiction over the location of the site.
- (3) In applying either for priority assistance or for authorization to Begin Construction, the applicant should also submit additional information as to the necessity for the proposed construction, any exceptional hardships which the restrictions of this Order impose upon him, the effect on employment conditions if the application is denied, and any other pertinent facts.
- (g) Violations. Any person who wilfully violates any provision of this Order or who wilfully furnishes false information to the Director of Industry Operations in connection with this Order is guilty of a crime, and upon conviction may be punished by fine or imprisonment. chinery delivered by such Distributor to fill an Approved Order, or to limit the right of a Manufacturer legally to extend any Preference Rating Certificate to secure material for the production of Approved Orders for Critical Industrial Machinery.

(2) Manufacturers or Distributors may apply for authorization to produce or deliver orders now on their books which are not Approved Orders by filing with the War Production Board, in triplicate, plainly marked "Ref: L-83", a list of all such orders now on the books together with the name of the purchaser or lessee, the date of the order, the number of pieces of equipment or machinery, a description of the machinery, the sales or rental value of the machinery, the rating assigned, the Preference Rating Certificate number, if any (or blanket preference rating order and serial number), the specified delivery date, the percentage of completion of the order, and the expected use to which the machinery will be put. The Director of Industry Operations may thereupon, if he shall deem it necessary or appropriate in the public interest and to promote the national defense, authorize the production and delivery of any such orders, or the assignment of preference ratings thereto.

(c) Non-applicability to repair or maintenance of existing equipment. The prohibitions of paragraph (b) hereof shall not be construed to restrict any delivery (1) to fill any Order of less than \$1000 for parts to be used to repair or maintain a single piece of existing machinery, or a single piece of machinery delivered under the terms of this order, or (2) to fill any Order of \$1000 or more for repair or maintenance parts when and only when there has been an actual breakdown or suspension of operations because of damage, wear and tear, destruction or failure of parts, or the like, and the essential repair or maintenance parts are not otherwise

available.

(d) Applicability of Priorities Regulation No. 1. This order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944) as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this order shall govern.

(e) Appeals. Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him may appeal to the War Production Board setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(f) Communications to War Production Board. All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Washington, D. C. Ref: L-83

(g) Violations. Any Person who wilfully violates any provision of this order, of who by any act or omission falsifies records to be kept or information to be furnished pursuant to this order, may be prohibited from receiving further deliveries of any Material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (a) of the Criminal Code (18 U.S.C. 80).

# FEDERAL POWER COMMISSION.

[Docket No. G-251]

IN THE MATTER OF CABOT GAS CORPORATION

ORDER FIXING DATE OF HEARING AND SUS-PENDING RATE SCHEDULE

APRIL 7, 1942.

It appearing to the Commission that:

(a) Cabot Gas Corporation has on file a certain Rate Schedule, designated in the files of the Commission as Cabot Gas Corporation Rate Schedule FPC No. 1, and certain supplements thereto, designated as Supplements No. 1 and No. 2 to said Cabot Gas Corporation Rate Schedule FPC No. 1; and Cabot Gas Corporation, on March 14, 1942, completed its filing with the Commision of a certain supplemental rate schedule, designated as Supplement No. 3 to Cabot Gas Corporation Rate Schedule FPC No. 1, which schedule and supplements, among other things, contain provisions whereby

certain increased rates or charges for natural gas sold to Pavilion Natural Gas Company for resale for ultimate public consumption are proposed to become effective as of February 8, 1942;

(b) Said Supplement No. 3 to Cabot Gas Corporation Rate Schedule FPC No. 1 was received by the Commission on February 3, 1942, but was not accompanied by the information required by Commission's Orders No. 72 and No. 72-A, to support or justify the proposed changes in rates or charges; this omission was called to the attention of the company in a letter of February 10, 1942, and in compliance, Cabot Gas Corporation submitted the required information on March 14, 1942, the date designated by the Commission as the filing date thereof, in accordance with the requirements of said Orders No. 72 and No. 72-A:

(c) The filing of said Supplement No. 3 was not complete until March 14, 1942, in accordance with the provisions of said Orders No. 72 and No. 72-A; and under the provisions of section 4 (d) of the Natural Gas Act, the said supplement could not, unless\* otherwise ordered by the Commission, become effective until thirty days thereafter, i. e., April 13, 1942;

(d) The schedule of increased rates or charges contained in said Cabot Gas Corporation Rate Schedule FPC No. 1, as modified by Supplement No. 3 to said schedule, which supplement by its terms is proposed to become effective as of February 8, 1942, may result in excessive rates or charges to Pavilion Natural Gas Company, or place an undue burden upon ultimate consumers of natural gas, which increased rates or charges have not been shown to be justified;

The Commission finds that:

It is necessary, desirable and in the public interest that the Commission enter upon a hearing concerning the lawfulness of the proposed increased rates or charges and that said proposed increased rates or charges be suspended pending such hearing and the decision thereon, but not for a longer period than five months beyond April 13, 1942;

The Commission, upon its own motion, orders that:

C., concerning the lawfulness of the rates or charges contained in said Cabot Gas Corporation Rate Schedule FPC No. 1, and Supplements No. 1 and No. 2 thereto, as modified by Supplement No. 3 thereto, which are proposed to become effective under the terms of said supplement as of February 8, 1942;

(B) Pending such hearing and decision thereon the schedule of increased rates or charges contained in said Cabot Gas Corporation Rate Schedule FPC No. 1, and Supplements No. 1 and No. 2 thereto, as modified by Supplement No. 3 to said schedule, except in so far as

<sup>17</sup> F.R. 2713, 2715.

(C) During the said period of suspension the rates or charges of Cabot Gas Corporation to Pavilion Natural Gas Company, as provided for in said Rate Schedule FPC No. 1, as modified by Supplements No. 1 and No. 2 thereto, shall remain and continue in full force and effect, except in so far as they may be for the sale of natural gas for resale for industrial use:

(D) At such hearing, the burden of proof to show that the proposed increased rates or charges are just and reasonable shall be upon Cabot Gas Corporation, as is provided in section 4 (e) of the Natural Gas Act;

(E) Interested State commissions may participate in said hearing as provided in § 67.4 of the Provisional Rules of Practice and Regulations under the Natural Gas

FEDERAL TRADE COMMISSION.

[Docket No. 4744]

IN THE MATTER OF TENNESSEE TUFTING COMPANY, A CORPORATION

COMPLAINT

The Federal Trade Commission having reason to believe that the party respondent named in the caption hereof and hereinafter more particularly designated and described, since June 19, 1936, has violated and is now violating the provisions of subsection (a) of section 2 of

the Clayton Act (U.S.C. Title 15, section 13) as amended by the Robinson-Pat-man Act, approved June 19, 1936, hereby issues its complaint stating its charges with respect thereto as follows:

PARAGRAPH ONE: Respondent, Tennessee Tufting Company, is a corporation organized and existing under and by virtue of the laws of the State of Tennessee with its principal office and place of business at 2404 Heiman Street, Nashville, Tennessee.

Par. Two: Respondent is now and has been, since June 19, 1936, engaged in the business of manufacturing and selling tufted bedspreads, bath mats, rugs and allied products for use, and resale within the United States. In the course and conduct of its said business, respondent sells the aforesaid products to purchasers located in the various states of the United States, and causes said products, when sold, to be shipped and transported from its place of business in the State of Tennessee across state lines to the respective purchasers thereof located in various states of the United States other than the State of Tennessee. There is and has been, at all times mentioned herein, a constant current of trade in said products, between respondent, located in the State of Tennessee, and its customers located in various other states of the United Sates.

PAR. THREE: In the course and conduct of its business as aforesaid, respondent has been, and is now, engaged in substantial competition in commerce with other manufacturers and sellers of tufted bedspreads, bath mats, rugs and allied products, who, for many years prior hereto, have been, and are now, engaged in manufacturing and selling and shipping such products in commerce across state lines to purchasers thereof located in the various states of the United States.

Many of respondent's customers are competitively engaged with each other and with the customers of respondent's competitors in the resale of said products within the several trade areas in which respondent's said customers respectively offer for sale and sell the said products purchased from respondent.

PAR. FOUR: In the course and conduct of its said business, since June 19, 1936, respondent has been and is now discriminating in price between different purchasers of said products of like grade and quality, which products have been and are being sold by respondent in commerce for use, and resale as aforesaid, by selling said products to some of said purchasers at lower prices than the prices at which it sells products of the same grade and quality to other of its said purchasers, and by giving and allowing certain of said purchasers adjustments, rebates or discounts not given or allowed to other of respondent's said purchasers.

- (a) Among the general practices pursued by the respondent in discriminating in price, since June 19, 1936, are the following:
- 1. A rebate of 5% has been granted and allowed to each customer who is a member of a buying syndicate if the

<sup>&</sup>lt;sup>1</sup> 5 F.R. 2379-2381.

total purchases of the member customers of the buying syndicate through which the purchases of such member customer are made aggregate a minimum of

\$10,000 annually.

2. A rebate of 5% has been granted and allowed to certain of respondent's large individual customers upon varying terms and conditions. Some of this class of customers were granted and allowed a rebate of 5% when their individual annual purchases aggregated a minimum of \$5,000 and 6% when their individual purchases aggregated a minimum of \$15,000. Others of this class of customers were granted a rebate of 5% irrespective of the aggregate amount of their individual annual purchases and the rebate was denied entirely to others of said class of customers irrespective of the aggregate amount of their annual purchases.

(b) More recently and at the present time among the practices pursued by the respondent in discriminating in price are the following:

1. The respondent grants and allows a 5% rebate to any retail customer on its purchases if such purchases exceed \$5,000 per year. Such rebate is entirely denied others of this class of customers whether or not their purchases of the respondent's products exceed \$5,000 per

2. The respondent grants and allows a 5% rebate to each customer who is a member of a buying syndicate if the annual purchases of such member customer aggregate a minimum of \$500.00, or if the total purchases of the member customers of the buying syndicate through which the purchases of such member customer are made aggregate a minimum of \$10,000 annually.

PAR. FIVE: The effect of such discrimination in price by respondent, as set forth in Paragraph Four hereof, has been and may be substantially to lessen competition in said line of commerce in which respondent is engaged, and to injure, destroy and prevent competition with respondent and with those of respondent's customers who are granted the benefit of such discrimination.

Such discrimination in price by respondent between different purchasers of commodities of like grade and quality in interstate commerce in the manner and form aforesaid are in violation of the provisions of subsection (a) of section 2 of the Act described in the preamble hereof.

Wherefore, the premises considered, the Federal Trade Commission on this 8th day of April, A. D. 1942, issues its complaint against said respondent.

Respondent by such answer shall be deemed to have waived a hearing on the allegations of fact set forth in said complaint and to have authorized the Commission, without further evidence, or other intervening procedure, to find such facts to be true, and if in the judgment of the Commission such facts admitted constitute a violation of law or laws as charged in the complaint, to make and serve findings as to the facts and an order to cease and desist from such violations.
